

FASTPASS NEWSLETTER #14

Spring 2017

FastPass results are available soon!

On March 31st 2017, the FastPass project officially comes to its end. It has been an outstanding journey! 51 months of research, development, test and evaluations; 27 partners, 9 countries and around 130 team members involved; 67 deliverables, 3 demonstrations, more than 200 dissemination actions... All this has enabled the production of a set of interesting results proper to contribute to the evolution of the Border Control field.

How can you access those results? FastPass shot a video summarizing its achievements - see below! The Consortium will also produce a public deliverable encompassing best practices learnt from the project. Besides this, specific actions will be also undertaken after the end of the project to ensure the further use of the work done during these last years. Eager to know more? We will keep you updated on this topic in a last newsletter to be published in early summer! So, stay tuned! And if any question arises until then, feel free to contact us: FastPassCoordinator@ait.ac.at!
